Iceland volcano ashes cause massive flights disruption across Europe

Flights across much of Europe are being cancelled on a second day of massive disruption caused by drifting ash ejected from a volcano in Iceland. Hundreds of thousands of passengers are affected and severe disruption could extend into the weekend, including on flights to North America and Asia.

Some 5,000 flights were cancelled on Thursday as airspaces from the Republic of Ireland to Finland were closed.

The ash is not thought to pose a serious health risk to people however.

Health officials in Scotland, where the ash was expected to start falling overnight, said the concentration of particles that fell was

Project activities - challenges and rewards

University cooperation: mobility & academic exchange

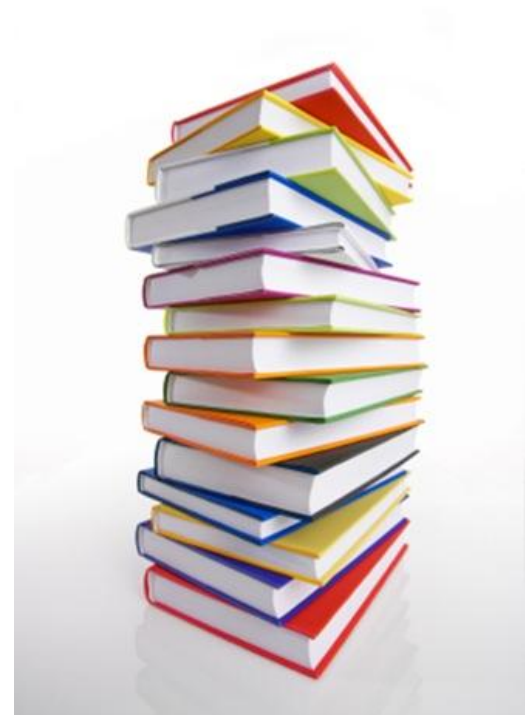

- ❑ working in an international setting
- ❑ project management and coordination (busy time schedule of participants)
- ❑ revealing that we face same problems and share common dilemmas and can solve them together

Postgraduate Qualification in Pharmacy:
The Way Forward

**POSLEDIPLOMSKO USAVRŠAVANJE
FARMACEUTA – korak napred**
Tempus Project JP 158897-2009

Univerzitet u Beogradu, Farmaceutski fakultet, koordinator je međunarodnog projekta *Postgraduate Qualification in Pharmacy: The Way Forward* (PQPharm) koji je u okviru programa Tempus finansiran od strane Evropske izvršne agencije za programe iz oblasti obrazovanja, medija i kulture (EACEA). Tempus je program Evropske unije koji pomaže reformu i modernizaciju visokog obrazovanja u partnerskim zemljama i jedan je od najstarijih i najuspešnijih programa saradnje EU.

Predmet projekta je unapređenje i modernizacija programa post-diplomskog specijalističkog usavršavanja farmaceuta, kao i programa kontinuiranog stručnog usavršavanja, kroz:

- unapređenje studijskih planova i programa;
- razvoj nastavničkog kadra;
- unapređenje nastavnih materijala i metoda i
- razvoj platforme za elektronsko učenje.

Cilj projekta je da se uspostavi fleksibilniji i efikasniji sistem post-diplomskog stručnog usavršavanja, zasnovanog na jasno definisanim ishodima učenja u skladu sa potrebama struke i tržišta rada, kao i usaglašavanje sa odgovarajućom praksom i standardima koji postoje u Evropskoj Uniji.

Realizacija postavljenih dijelova biće ostvarena kroz intenzivnu saradnju i razmenu znanja i iskustava sa EU partner institucijama, uz podršku odgovarajućih institucija u zemlji i jačanje veza između domaćih Univerziteta.

Pored Univerziteta u Beogradu, učesnici u realizaciji projekta su Univerzitet u Dablinu, Univerzitet u Londonu, Univerzitet u Griniču, Univerzitet u Ljubljani, Univerzitet u Novom Sadu, Univerzitet u Nišu, Univerzitet u Kragujevcu, Joint Programmes Board iz Londona, Farmaceutsko društvo Srbije, Farmaceutska komora Srbije, Društvo medicinskih biohemičara Srbije, Komora biohemičara Srbije, a projekat je podržan i od strane Ministarstva prosvete i Ministarstva zdravlja Republike Srbije.
